Innovative Flat Filament Braided for High Abrasion Resistance

GORILLA SLEEVE (NH) is engineered from flat filaments of tough and strong 6-6 Nylon to achieve a thick abrasion guard for use on hoses. This type of sleeve has been tested against competitors abrasion guards that mix materials in an effort to gain slight abrasion advantages.

Gorilla Sleeve achieves better results without sacrificing great looks or flexibility.

50 mil flat monofilament

10 mil round monofilament

Comparison of monofilaments: flat versus round (magnified for better visibility)

Constant abuse from abrasion and vibration make Gorilla Sleeve the choice to protect hoses on excavators and heavy equipment.
